

# WHY SAVE TREES ?

- Take up Valuable Space. ☹️
- Slow Down Development Plans. ☹️
- Cost More Money. ☹️

SAVING EXISTING MATURE TREES  
DURING DEVELOPMENT

# WHY NOT SAVE TREES ?

## COMMUNITY AESTHETICS AND DOMESTIC WELL BEING

- Shape our Experience in a Positive Way
- Improves Where We Live, Work and Play
- Provide a Stronger Sense of Community

# MORE-WHY SAVE TREES

## ENVIRONMENTAL HEALTH

- **PROVIDES A FUNCTIONING ECOSYSTEM**
  - Storm Water Management
  - Ground Water Recharge
  - Natural Cooling and Windbreaks
  - Wildlife Habitat
  - Erosion Control
  - Carbon Dioxide Intake and Oxygen Release

# MORE-WHY SAVE TREES

## ECONOMIC BENEFITS

- **Increase Property Values :**  
**Trees Attract More Attention, Are Worth More Money and Sell More Quickly**
- **Enhance Employment Conditions:**  
**Attract and Retain Employers and Employees Who Value High Quality of Life**
- **Attracts Tourists and Shopping Dollars:**  
**Shoppers go to and stay longer when trees and landscape are present**

# HOW DO WE SAVE TREES?

- Emphasize tree benefits and appeal to owner/developers civic benevolence???
  - Not Likely!
- We make Developers Save Trees Through
  - Tree Protection Codes
  - Good Tree Information
  - Design
  - Application

**For More Information See  
“SAVING EXISTING MATURE  
TREES DURING  
DEVELOPMENT”**

**Thank you!**
